## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

- 1) ☒ Responsive to communication(s) filed on 01 April 2003.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## Disposition of Claims

- 4) ☒ Claim(s) 1-4 is/are pending in the application.
- 4a) Of the above claim(s) \_\_\_\_\_ is/are withdrawn from consideration.

## **DETAILED ACTION**

### ***Response to Arguments***

Applicant's arguments with respect to claims 1-4 have been considered but are moot in view of the new ground(s) of rejection.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 1 defines "a base ... for enclosing a coin box" and defines "a coin box in said base" making the claim unclear; change this to "a base ... enclosing a coin box". Claim 1 defines "a base ... for supporting a merchandise container" and defines "a lid covering said merchandise container" making the claim unclear. Change this to "a base ... supporting a merchandise container". Terms which lack support in the disclosure include: "a bottom floor" change this to a container frame (15) in claim 1. Be sure there is a clear distinction between the base top frame and the container (bottom) frame. Terms which make the claims indefinite include: "said container floor" change to said bottom floor in claim 1, "the top" change the to a, "the front" twice, change to a front edge, "the front edges" is o.k. if the later change is made, all in claim 4. Claim 3 is misdescriptive because the front wall is actually interlocked with the latch hook 36 of the bottom floor of the container. The hook passes through the top

Art Unit: 3637

frame and thus the front wall top frame and container frame are all interlocked but without the container hook the front wall cannot interlock with anything and an essential structural relationship is absent.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 4, as presented, is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Jones. Jones has a base 22, a container 295 and a lock structure including a projection 336 and a movable lock element 400-404.

***Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

Art Unit: 3637

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claims 1-3, as presented, are rejected under 35 U.S.C. 103(a) as being unpatentable over Householder in view of Jones and Bolen. Householder is cited showing a machine having a lid 75, container 60 with a bottom 80, a base 30 with walls 34, 35, a front wall 41, a lock 120 and a coin box 110. Householder fails to show a base top frame or a lock mounted in the front wall. Jones is cited showing a lock in a front wall 30 for the purpose securing the front wall, base and container. Bolen is cited showing a machine with a container 60 having a bottom 55 and a base 25 having a top frame 40 for the purpose of supporting the container on the base and enclosing the container and base. Since the references are from the same field of endeavor the purpose of Jones and Bolen would have been obvious in the pertinent art of Householder at the time of the invention it would have been obvious for one having an ordinary skill in the art to have modified Householder with a lock in a front wall 30 for the purpose securing the front wall, base and container in view of Jones and with a container having a bottom and a base having a top frame for the purpose of supporting the container on the base and enclosing the container and base a in view of Bolen.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3637

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
